AMERICAN MAIL, MERCHANTS IN LOUISIANA.—It is with pleasure that we have seen the names of various individuals of the fair names in delegations of patriotic Americans to the grand mass-meeting in the city on the 27th inst.

We learn from the *Shelby* News that the American Mail, which are moving in response to this meeting and intend to sustain its reputation as a sound dispenser of American papers.

The American Patriot emphatically recommends this mass meeting and publishes a circular of the Circular in Henderson county to make preparations to signal a large delegation.

The meeting will be interesting. The usual list of American friends from every county of Kentucky and from other States will be present and the brightest lights of the party are expected to be in attendance. The place of meeting is easily accessible and the time convenient for our friends to get together and make a grand party and town in the State send its quota. Which will be the banner country in the number of its delegations.

THE RELECTIONS—Scarcely enough is yet known in the papers and nothing definite in the result. The Northern Telegraph has a few lines and we have to take refuge from Local or Mississippi, except that the Americans are leading in New Orleans. As the greater difficulty was seen at that position on account of the city taking the unexpected turn given great signs of the success of the American party throughout the State.

Though however it is to be shown that the Massachussetts Abolitionists, under Henry Wilson, have been defeated, and that Gardner was lost for several weeks, been abated by the French press foradvancing to re-estimate the American party on the Philadelphia platform, has been beaten by a majority and by about 15,000 plurality. The Americans have a slight advantage for the State.

In New York, the returns very unexpectedly show a large American triumph. Isaac Hopper, Americans, has been elected in the Sixth District of New York city by a large majority. The contest is evidently between the Americans and the Abolitionists; the *Safe-House* and In-Quarters allies are far behind. The returns from Buffalo clearly the large cities where the American majorities were great. We are inclined to believe the summary of the whole returns telegraphed from New York is the most reliable. These place the Americans largely in the plurality. We will wait for further returns.

Contrary to expectation the election passed off quietly in Baltimore. We shall have reliable news from Maryland till to-night.

In New Jersey the returns seem a good deal mixed. The next dispatches will inform us better of the subject.

Wisconsin comes in but not quite a majority of its congressional voters and will of course largely for the Abolitionists.

THE THEATER.—A very full house was opened last night by Miss Susan Dean as Romeo and Juliet. We like the play very well. In "Casanova" Mrs. Kite represents Miss Kite with much spirit and elicited the applause of the whole audience. Wood-Brown's *Casanova* excited moderate curiosity; he is indeed a funny fellow, that Wood-Brown.

Tonight the Misses Dean will appear in "The Lady of Lyons." Miss Susan as Claude and Miss Kite as Pompe. "The Widow's Victim" is the intermission. Miss Susan will appear as Jose Chastany and Miss Kite as Mrs. Ruffino.

THANKSGIVING IN KENTUCKY.—Another column will be found the proclamation of Governor Meekins, appearing Thursday, the 29th inst., to be observed as a day of thanksgiving and prayer.

The seats are all free. The public are especially invited to attend.

THEATRE.—Our Dr. W. L. is now with a great deal of pleasure that our talented and witty friend, Chas. M. Barras, of Cincinnati, has been enlightening the people of that city by assuming the principal character in a farce of his own composition. We had the pleasure of hearing Mr. Barras read the *Hypothecary* some weeks ago. Its composition Mr. Barras had no little to do with it, established library reputation. He has been invited to produce it to our theaters. This has been conceded to him, and on Saturday next, we are to enjoy the double pleasure of seeing an author in his own play, and witnessing an amateur performance. With such inducements, a large audience cannot fail to be attracted.

A GRANARIAL.—We have care in operation at H. M. Smith's shop, on the north side of Jefferson street, a few doors below Third, Professor's corner. No machine can perform the work more thoroughly, more rapidly, and with a less amount of power. The carmen will take the premium at New York and several other States. Mr. William McClure, who exhibits it, has obtained the right to sell it in Kentucky.

IMPORTANT ARREST.—The Milwaukee Weekly, of the 1st, reports the arrest by W. E. Beck of 400 vagrants who have been engaged, for months past, in placing obstructions upon the track of the M. & M. R., endangering life and destroying property. Two of them, brothers, have been shot through the head, and a third, a man, was severely wounded. The cars are all fastened, and the road perfectly smooth. The prejudice which we have alluded to as having just existed against the road in former years is gradually dying off, and we long hope to see it done the whole passenger business between the two points.

Having taken all the advantages of the road, we may well be in a position to do it again.

There are hundreds who will commence paying as much as \$4 and \$5 for riding in, carriage from Portland a few years ago. These prices would be demanded now, were it not for the railroad. Other conveyances have been compelled to put down the prices, yet their charges are now occasionally less than the fare on the railroads. The cars are, however, in every respect the most comfortable and agreeable route. The railroad, possessing all the advantages, should and will finally command the trade.
